Company Background

ABOUT US

Our experience is built on a family legacy of more than **20 years** in local trade, giving us a deep understanding of product sourcing, market needs, quality consistency, and long-term business relationships.

Today, we are expanding globally with a clear vision and a **Professional Approach**, offering products that combine the authenticity of Egyptian agriculture with internationally recognized quality standards.

Our journey began with a strong focus on **Natural Loofah A 100% Plant**-based product cultivated in Egyptian soil and widely used around the world for natural skincare, bathing, and personal care applications.

As we grow, we aim to expand our product portfolio with a wider range of natural Egyptian products that reflect the **richness of our resources**, the reliability of our supply, and the quality of our production capabilities.

Company Background

VISION - MISSION

Our Vision

To become one of Egypt's leading exporters of premium natural products, delivering quality rooted in authentic Egyptian heritage and proving the ability of Egyptian products to compete with world-class natural brands.

Our Mission

At Agricultural Village Export Co., we are committed to supplying safe, eco-conscious natural products grown in Egypt and prepared according to high quality standards.

Starting with natural loofah, we aim to expand our portfolio with reliable Egyptian natural products that serve global markets with authenticity, consistency, and trust.

Company Background

OUR CORE VALUES

Quality

We deliver high-quality natural products that meet both local and international market standards.

Integrity

We believe in transparency across sourcing, processing, packaging, and export operations.

Sustainability

We prioritize natural materials and eco-friendly practices that support a cleaner future.

Development

We continuously improve our products, packaging, and supply capabilities to meet global demand.

Customer First

We place our clients' needs at the center of every decision, ensuring trust, reliability, and long-term satisfaction.

Company Background

ACTIVE MARKETS

Green indicates our active markets.

Company Background

Certifications and Accreditations

Our certifications reflect a strong commitment to internationally recognized standards in quality management, workplace safety, operational control, and continuous improvement. They demonstrate our focus on delivering reliable natural loofah products through trusted processes, responsible production practices, and export-ready performance that supports long-term partnerships with global clients.

These certifications reinforce our dedication to trusted processes, reliable production, and export-ready performance.

ISO 18001

Occupational Health & Safety Commitment

Reflecting our commitment to maintaining responsible workplace practices, operational safety, and controlled working environments across our production and processing activities.

ISO 9001:2015

Quality Management System

Demonstrating our dedication to consistent quality management, continuous improvement, customer satisfaction, and reliable operational performance.

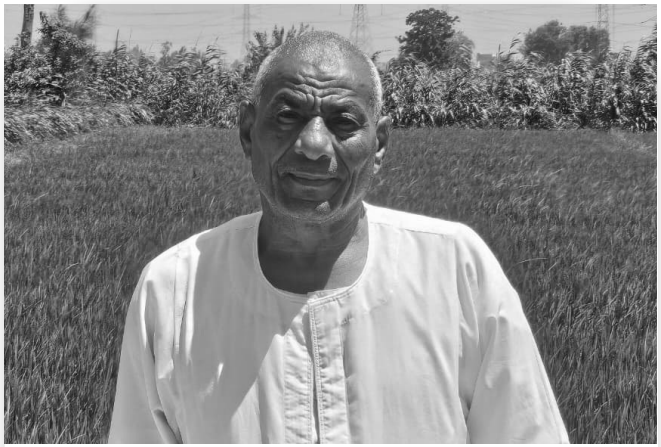
Company Background

Business Owners

Khamis Hamed is partner and Co-Founder of the Agricultural Village Export Co. He studied Business Administration and Commerce at Cairo University and has specialized in the trade and processing of Egyptian loofah within his family business alongside his father for over **25 years**. He works on developing innovative processed loofah products to meet the currently rising international demand. Additionally, he manages the division responsible for expanding natural loofah cultivation and overseeing commercial contracts with Egyptian farmers to procure the crop; this ensures the company can supply required quantities within agreed-upon timeframes, thereby preventing any delays in the manufacturing and export stages.

Islam Hamed is a Partner and Co-Founder of Agricultural Village Export Co. He studied Agricultural Surveying at King Mariout Higher Institute in Alexandria, building an academic background connected to agricultural land, field operations, and crop-related business activities.

He currently oversees quality management and sales operations, working closely with both local and international clients. His role focuses on ensuring that the company's products meet expected quality standards while maintaining strong communication with customers across different markets.



Hajj Hamed Abdullah is a highly experienced local loofah trader with more than **35 years** of expertise in the Egyptian natural loofah market. Throughout his career, he has built strong relationships with farmers, traders, and manufacturers, giving him deep knowledge of crop sourcing, quality selection, seasonal availability, and market supply dynamics.
He plays a vital role in securing the required quantities of natural loofah for **Agricultural Village Export Co.,** whether for direct trade, processing, or manufacturing purposes. His extensive field experience enables the company to source reliable raw materials, maintain supply consistency, and respond efficiently to export and production requirements.

NATURAL LOOFAH

- Why Choose Us?
- An Overview of Natural Loofah
- Benefits of Natural Loofah
- Work Stages

Natural Loofah

WHY CHOOSE OUR NATURAL LOOFAH?

At Agricultural Village Export Co., we believe that quality is the foundation of trust, long-term partnerships, and successful global trade.

That is why every natural bath loofah product goes through a carefully managed process of selection, preparation, drying, inspection, and packaging to ensure high standards of cleanliness, durability, and export readiness.

Natural Loofah

AN OVERVIEW OF NATURAL LOOFAH?

Natural bath loofah is a 100% plant-based product extracted from the mature loofah plant, cultivated in Egypt's fertile agricultural lands.

Known as one of the oldest natural bathing tools, loofah is valued worldwide for its eco-friendly nature, durable fiber structure, and effective skincare benefits.

Once harvested at full maturity, the loofah goes through a careful traditional preparation process that preserves its natural purity and texture.

Natural Loofah

BENEFITS OF NATURAL BATH LOOFAH

Natural Bath Loofah is an ideal choice for daily body and skin care, combining simplicity, purity, and wellness benefits in one eco-conscious product. Derived from nature, it offers an effective and gentle cleansing experience while supporting healthier skin and a more sustainable lifestyle.

1. Deep Skin Cleansing

Natural loofah helps gently remove impurities, excess oils, and dead skin cells, leaving the skin feeling smoother, fresher, and healthier-looking.

2. Stimulates Blood Circulation

Massaging the body with loofah helps promote blood flow and improve skin vitality, contributing to a more refreshed, energized, and radiant appearance.

3. 100% Natural Product

Free from synthetic materials and harsh chemicals, natural loofah is a safe and skin-friendly option suitable for all skin types, including sensitive skin.

4. Perfect for Daily Care

It can be used with soap, shower gel, or natural cleansers to enhance the cleansing routine and improve the overall bathing experience.

5. Eco-Friendly Choice

As a plant-based and biodegradable product, natural loofah is an excellent alternative to plastic bath sponges, helping reduce environmental impact.

6. Versatile & Multi-Purpose

Natural loofah can be produced in various shapes and sizes to suit multiple uses, including body care, facial cleansing, and other personal care applications.

Products & Solutions

OUR PRODUCTS

At Agricultural Village Export Co., we offer a growing range of premium natural loofah products crafted from carefully selected Egyptian loofah fibers. Our products are prepared to meet different market needs, from raw natural loofah to finished bath and skincare accessories, with flexible options in size, shape, finishing, and packaging.

Each product reflects our commitment to natural quality, clean processing, durability, and export-ready standards — making our loofah solutions suitable for importers, distributors, hotels, spas, beauty centers, and private label brands worldwide.

- Raw Loofah
- Oval / Baby Loofah
- Loofah Glove (Kaf)
- Padded Loofah Glove
- Loofah Back Scrubber
- Marina Loofah
- Moroccan Loofah Glove

01

OUR PRODUCTS

Raw Loofah

Our raw loofah is supplied in its natural, unprocessed form, tightly compressed into export-grade bales as shown in the images. Each bale contains high-quality loofah fibers with natural variations in size, texture, and density—exactly as harvested from the farm. This format is ideal for factories, workshops, and brands that process or cut loofah according to their own product specifications. We offer full flexibility, providing samples upon request and tailoring bale selection to meet your required quality level, fiber length, or density.

Size: Not fixed (varies by harvest).
Packaging: Bulk compressed bales

02

OUR PRODUCTS

Oval / Baby Loofah

This small, kid-friendly loofah is crafted from soft natural fibers, offering gentle and safe exfoliation for delicate skin. Its oval shape provides an easy, comfortable grip for both children and parents, making bath time smoother and more enjoyable. Designed with the smallest mold in our collection, it ensures mild cleansing without causing irritation—ideal for baby care brands and family bath sets.

Size: 12 × 16 cm.
Use: Gentle exfoliation suitable for kids.

03

OUR PRODUCTS

Loofah Glove (Kaf)

This natural loofah glove is designed in a standard adult size, offering effective exfoliation for daily shower use. Its sturdy fiber texture helps remove dead skin cells while stimulating circulation, leaving the skin refreshed and smoother. With a comfortable 16 × 20 cm fit, it provides a secure grip and full hand coverage, making it ideal for personal care routines, spa products, and retail body scrub collections.

Size: 16 × 20 cm.
Use: Body scrub for adults..

04

OUR PRODUCTS

Padded Loofah Glove

This upgraded loofah glove comes with an inner padded layer, providing extra firmness, added comfort, and better control during use. Its slightly larger 16 × 22 cm size offers improved hand coverage, making exfoliation smoother and more efficient. The reinforced structure enhances scrubbing performance without causing discomfort, making it ideal for customers seeking a more supportive and premium exfoliating experience.

Size: 16 × 22 cm.
Use: Enhanced exfoliation with extra support.

05

OUR PRODUCTS

Loofah Back Scrubber

This versatile natural loofah comes without fixed dimensions, allowing it to be cut and shaped according to each customer's specific needs. Its strong natural fibers provide effective full-body exfoliation, helping cleanse the skin and improve circulation during daily showers. Ideal for brands seeking customizable loofah options for retail, spa use, or private-label packaging.

Size: 11 × 31 cm.
Use: Full back cleaning and exfoliation.

06

OUR PRODUCTS

Marina Loofah

The Marina loofah is designed with an extra-long 11 × 90 cm profile, allowing it to reach and exfoliate the entire body with ease. Its flexible structure makes it perfect for cleansing hard-to-reach areas like the back, shoulders, and legs without effort. Crafted from natural, durable fibers, it provides effective exfoliation while remaining gentle on the skin—ideal for daily use, spa treatments, and premium bath collections..

Size: 11 × 90 cm
Use: covers the entire body effortlessly.
